

# A STORY OF HOPE

1. Do we know of anyone on campus that might feel isolated? What can you do to improve that situation?
2. Have you ever shared from your heart and felt vulnerable in front of others? Does it take courage?
3. How do you think sharing your story might impact someone else who has had similar experiences?
4. When we get to know each other in more of a personal way, how does that change our perceptions of others?
